MOISTURE ABSORBER 2 IN 1 MINI

DEVICE WHICH POWERFULLY COMBATS CONDENSATION, HUMIDITY AND STALE SMELLS

PRODUCT DESCRIPTION

Moisture Absorber 2 in 1 Mini reduces too high relative air humidity in small, (closed) rooms with little or no ventilation by means of active hygroscopic crystals. Simultaneously spreads a delightful scent.

FIELD OF APPLICATION

Suitable for e.g. wardrobe, meter cupboard, pantry, safe and sink cupboard. Reduces too high relative air humidity in small, (closed) rooms with little or no ventilation. Simultaneously spreads a delightful scent.

PROPERTIES

· Protects your valuable possessions against humidity
· Spreads a delightful scent
· Costs no energy
· Freshens the air
· Clean to use
· Works silently

APPLICATION

Coverage: Works for approx. 6 weeks in a room up to 3m³ and absorbs approx. 40 grams of water, depending on temperature, air humidity and size of the room.

Directions for use:
Remove protective cap by pulling tab. To activate Mini, turn top until you hear a click. Always put Mini with holes pointing upwards on a flat, stable surface. Mini is spent when bottom part is filled with liquid. Mini is not refillable. It may be disposed of in refuse container.

Stains/residue: Spilt fluid can cause surface marks. If fluid is spilt, it should be cleaned immediately using large volumes of water and dabbed repeatedly until dry. Avoid contact with leather, wood, stone and metal, as these materials can be affected negatively.

Points of attention: At lower temperatures the Moisture Absorber works more slowly. Increasing the temperature will speed up the working again. Avoid contact with leather, wood, stone and metal, as these materials can be affected negatively.
